ELECTION ISSUE

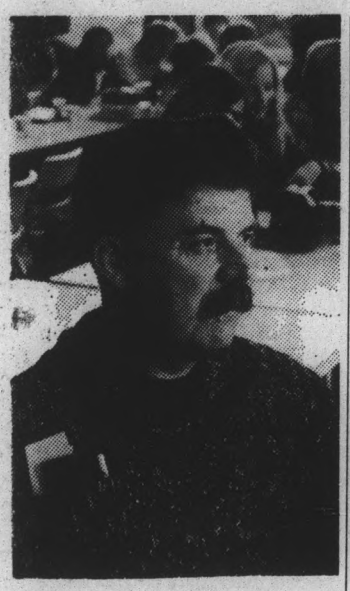

PANTHER SENTINEL

HARTNELL COLLEGE

"It's a Beautiful Day" Oct. 19, 2 P.M.

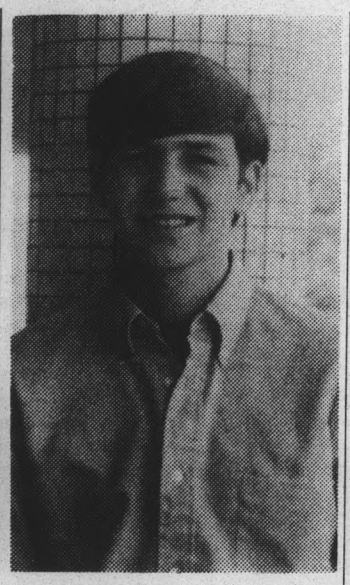

Volume XXXIX | Salinas, California, Friday, October 10, 1969 | Number 4

COMMISSION CANDIDATES

ROGER L. HILLYARD, ASB Vice President Candidate:

I cannot and will not promise you as an individual student any promise I cannot keep, however I do promise you as STUDENTS to direct my efforts and support to YOUR interests and the welfare of Hartnell. Neither is just a TODAY but each have a past, PRESENT and TOMORROW. It is the present and future I am primarily interested in. Experience qualifies me for the position I seek.

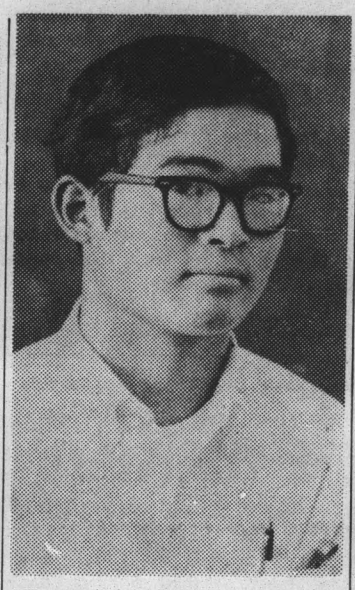

BOB BASKIN, for ASB Vice President:

It's time that effective changes took place at Hartnell. A new atmosphere must be created through which students can more easily become aware and involved. Outside views must be presented by increasing the number of outside speakers and through greater involvement in student-faculty discussion and communication. If elected, other priorities will be effective course evaluation, reform of current registration and counseling procedures, and removal of the wall between faculty and students in the Student Union. Only by electing commissioners who are willing to accept the need for a change can improvements be made at Hartnell.

JACK WEISBERG, Candidate for Vice President

My name is Jack Weisberg. I believe in a policy of best representation: (1) The immediate need for a new student store enlarged to serve more students. (2) An enlarged student union. (3) More college hour activities. (4) More and more active clubs on campus. (5) The physical education department desperately needs a swimming pool, here, on the Hartnell campus. (6) There should be **no appointed** commission ofices. (7) I believe that **interesting, regular** Student-Faculty discussions should be held. (8) I believe we should have the opportunity to bring on the campus outside speakers qualified to inform us on their various interests. (9) We need better classes. I will work for the betterment of all classes. The preceding has been the main part of best representation. 'Vaya con dios' or 'God be with you' and please vote for the candidate of your choice, but **please vote.**

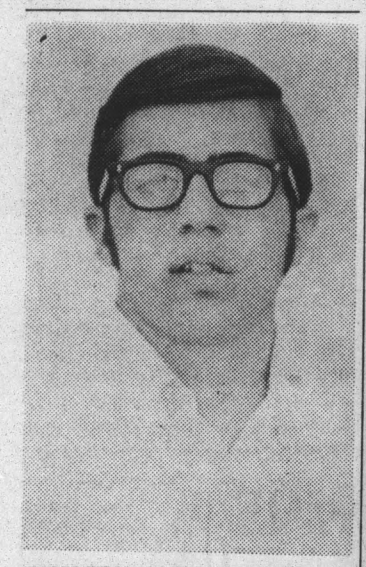

RUSSELL OGAWA, Candidate for Freshman Class President:

My campaign promises are not hollow words. They are words that have work, determination and imagination in them. My major priorities will be to: (1) Create more freshman representation (2) create a "college bowl" for intellectual competition (3) help formulate a workable course evaluation and (4) continue freshman polls when needed as a useful method of conveying freshmen students' views to their representatives.

JOSEPH A. PASCUAL, Candidate for Freshman President:

A student body organization, like the government in a democracy, exists solely to promote the welfare of its members. It is my belief that the issues which are relevant to the welfare of the student body are: (1) improvement of counseling facilities during registration, (2) creating better communications between the commission, the faculty and the students, (3) to create community service projects, and (4) the inception of a Freshman Week to provide an avenue for creating spirit and unity.

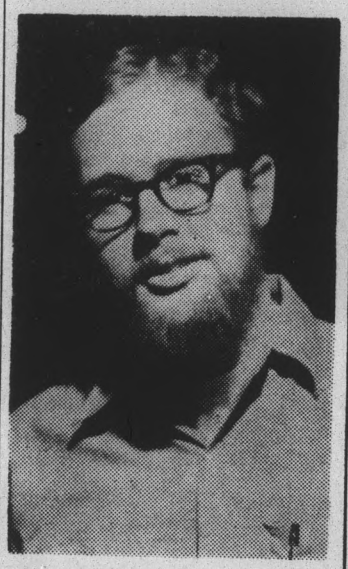

RICK KNUDSEN, Candidate for Freshman Class President:

I would like to present my qualifications and platform for the office of Freshman Class President. My past record shows I have been active throughout secondary education (academically, socially, athletically). I feel I am best qualified in diligently serving YOU, because of this displayed capability.

Elements of my platform include: 1) promotion of activities to A.S.B. cardholders. We freshmen certainly need to receive some worthwhile privileges from that "mandatory" $15 we paid out at registration. 2) closer watch on the expenditures of class funds — last year, money was spent quite freely! 3) support toward full time counselling, especially during semester's

(Continued on Page 2)

MARK WALL, Candidate for AWS President:

Some women around Hartnell seem to think that I could not understand a woman's viewpoint well enough to present what they want in the commission. I want to say why I think they are wrong.

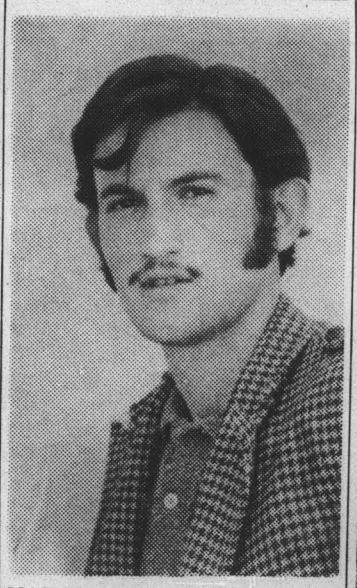

First, they are wrong in their concept of what an AWS president is supposed to be. An AWS president is supposed to represent the ideas that the Hartnell woman students, as a group, have agreed upon. He is not supposed to represent womanhood.

Second, an AWS president is supposed to organize the women on campus into an association. I feel I can do this better than

(Continued from Page 2)

ELECTION STATEMENT

We don't care who you decide to vote for, but remember your choice or failure to exercise your right of choice will affect you as students at Hartnell. The Commission either reflects your views or your apathy. Be damn sure to get out and vote next Monday and Tuesday. It's your chance to say how the ASB should be run.

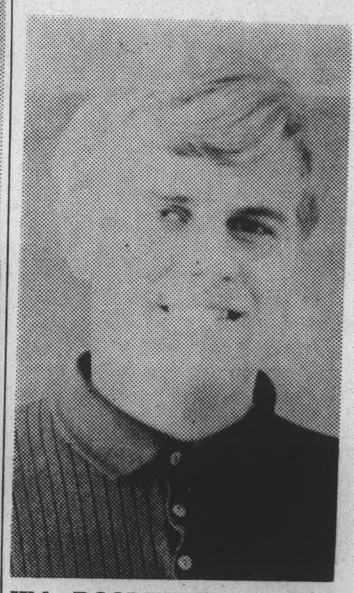

NAT HOLZER, the Commissioner of Student Store:

The student store is YOUR store. You shouldn't have to wait an hour to purchase your books and supplies. We desperately need a new larger and better equipped book store. By working in the book store I have found other things that need to be improved. In the past year I have worked on various and innumerable committees and therefore feel that I am most capable of handling this position.

NANCY WONG

is the woman candidate running for AWS president. At the time of publication, she was not available for photo or comment.

JIM DOOLITTLE, Candidate for Freshman Class President

I feel that there is more to college than just studying. I feel that students should become involved in the activities offered on campus. However, not enough activities are available. If elected, I will support new and better activities and needed reforms here on campus. These activities will give students an opportunity to meet people and to become a part of the college. The reforms will give the students more freedom and will help make them feel more adult. I would appreciate your support on Monday and Tuesday. Thank you.

COLLAGE BARRAGE

October 15 may not hold any special significance to most students, but this day has been set as the date of the first of a series of "Vietnam Moratoriums" which are aimed at producing an American withdrawal of military forces from Vietnam.

A nationwide campaign has been organized by student body presidents, college newspaper editors and such noted personages as Senators Charles Goodell, Eugene McCarthy, George McGovern, labor leaders Paul Schrade and Ceasar Chavez, John Kenneth Galbraith, Dr. Benjamin Spock and many others.

The major idea of the moratorium is the cessation of business as usual" on the specified day and that those participating spend the day gathering support for the U.S. withdrawal from Vietnam by canvassing the neighborhoods.

Plans are presently being formulated for the Hartnell observance of the moratorium, but the agenda could include a rally, guest speakers, the wearing of black arm bands, or possibly a combined effort with MPC or some other local college.

The Sentinel firmly supports the moratorium but wishes to stipulate that the idea of "dispensing with business as usual" should not be used merely as an excuse to get out of classes for the day. This matter is too serious to be ruined by such foolishness. The fate of both ourselves and our nation is at stake.

—MAC GILLA RUA

EDITOR'S MAILBOX

Something needs to be done about the noise in the library. I wonder just how many students actually know what a library is for?

The library was built for those who intended to further their knowledge in specific fields. It was meant for **studying,** not for socializing!

More people go to the library to meet their girl or boy friends than go to study. They seem to think it is an extension of the Student Union—without smoke, food and driink. Well it really isn't.

If the students have some material to discuss, they should use the conference rooms, which were designed for that specific purpose. Instead of this, those who really want to study are now using the conference and record rooms.

Students evidently don't want the library to be policed and I see no reason for it.

Each individual should know whether or not he is going to the library to actually study or just to socialize. He should use his own conscience to decide whether he goes to the library or not.

After all, we're here to get a better education for a more profitable future by using our school to its fullest extent.

Kris Momberg.

STUDENT VIEWPOINT

Here it is the beginning of another year and the faculty still hasn't requested that the "barrier" in the cafeteria be taken down. Do the members of the faculty really believe that they are such exceptional individuals that they won't even dine with the students in the cafeteria?

Many would like to see Hartnell assume a more "intellectual" atmosphere, but as long as the faculty segregates itself from the students behind the cafeteria wall there isn't a chance. The students would like an opportunity to talk to their instructors outside of class and what better time could there be than during a coffee break?

Besides being symbolic, the removal of the cafeteria wall is also very practical. Between the hours of 9 and 1 there are very few seats that are not occupied in the student sectiion, and thisi situation will get worse with the approaching cold weather forcing more students indoors.

The removal of the wall would provide about 40 more seats for the students.

The faculty is aware of the existing problem in the cafeteria because a great deal was said about it last year. All that remains to be done is for the faculty to request that it be taken down. It could be a very interesting gesture.

★ ★ ★

I mentioned in last week's paper that a report on the outcome of the Student Personnel Committee to evaluate the possibility of getting a full time counselor would be printed. However, at the time of this printng, no meeting has been held. Mr. Ramirez, who would call such a meeting, has been too busy with registration to seriously attack the problem. He has assured the students, however, that this meeting will be held in the near future.

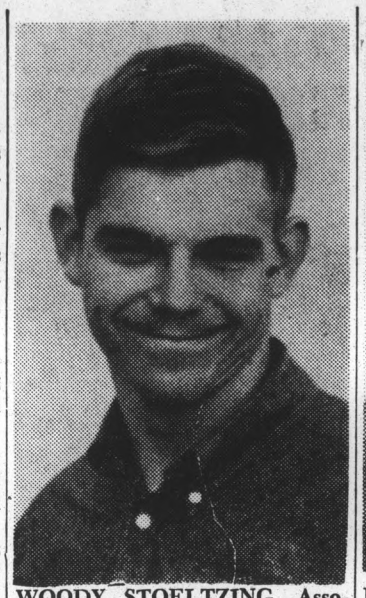

A report will follow the meeting and the sooner it is held the better.

One counselor told me that they have about 25 students see them each semester about personal problems. If the other counselors have only half this number then that means that about 100 students are being given advice by people no more qualified to do so than you or I.

WOODY STOELTZING, Associated Men's Students President Candidate:

At Hartnell today the various activities of the many clubs often conflict with one another, especially during the College Hour on Tuesdays and Thursdays. This conflict deprives many students of the activity of their particular interest. As Associated Men's Student President, I would work in conjunction with other commission and class officers to find out what students want and to answer those wants by planning and coordinating a greater variety of activities for the student body. Furthermore, I would arrange these activities at different times throughout the week so that students could more easily include extra-curricular activities into their schedules. Thanks for your support.

S.I.M.S. to Show Meditation Film

The Student-Faculty Discussion Group is sponsoring a film on Tuesday evening, the title being "Maharishi at Harvard." This film is about a lecture given by Maharishi at the Harvard Law School on transcendental meditation.

This system of meditation has been spreading through college campuses under the guidance of the Students International Meditation Society, founded in 1965 by Maharishi. Since then it has spread to every major university and college in the United States.

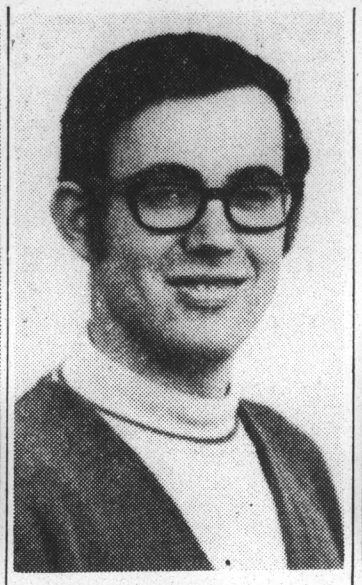

The purpose of the Students International Meditation Society is to help every individual expand his mind, develop his creative intelligence and make use of his full potential in studies, career and recreation.

To anyone interested, the movie begins on October 14 at 7:30 p.m. in the Student Lounge. There will be a question and answer period immediately following.

"The Alamo," 7:30, Wed., October 15

Have you taken in a movie yet? Well, if you have an ASB card you can take in a movie on October 15, this coming Wednesday at 7:30 p.m. The movie: "The Alamo." Who's in it? Right, the man that must be in every war, John Wayne. Also in the cast are Laurence Harvey, Richard Widmark and Richard Boone. Come early to get a good seat. It's free to ASB card holders and $1 to others.

Our next movie is "A Man for All Seasons" on October 29, Homecoming Week.

MARK HAMILTON, for Freshman Class Representative:

My name is Mark Hamilton and I am running for the office of Freshman Class Representative. As the name of the job says, I would be your representative on the commission. My whole job is to let the commission know the feelings and opinions of the freshman class and to keep the freshman class informed of what the commission is doing.

When I am elected, I will prove that I was the best choice you could have made. First, I will be receptive to you whom I represent. Recently, Russ Ogawa and I took a poll on several areas of concern to you to find out your views. Neither of the other candidates have made such an effort to find out how you feel. Second, I will be creative in my approach to student government. I would help create a Junior College Bowl and support the course evaluation program. Third, I would be active in student government in promoting the freshman class. I need you to support your representative and your commission. Please think about my ideas and what I can do for you. Thank you.

MARK WALL

(Continued from Page 1)

my opponent. Not because I am a man, but because I am a more outgoing person, and I have proven my ability to organize people. I was a page editor for an award-winning high school newspaper; I have been public relations man for Newman Club for two semesters; I am editor of the Newman News; and I am student manager in the college bookstore.

I ask Hartnell's women students to vote for me as a person, regardless of my sex. This is no more than a woman would ask when trying to get ahead in what is considered a man's world. Equal Rights!

TOM MERRILL, Commissioner of the Student Store:

I feel the store is representative of the many student activities at Hartnell and I support ALL activities that are for the best interest of the students and our school. There must be fair representation for ALL STUDENTS and not just a CHOSEN FEW. I intend to represent the pulse and beat of the life flow of ALL!

RICK KNUDSEN

(Continued from Page 1)

change. It is a serious problem when transfer students are denied advanced standing because of a guidance error at a J.C. 4) enhanced on-campus activities, such as those organized by Moby Mellon, and including large rock concerts similar to the upcoming "It's A Beautiful Day."

I have been to the past commission meetings and in contact with last year's freshman president and this year's A.S.B. president. I feel I am closely associated to the students' will and can best represent them both in and out of the commission meeting. For responsible leadership, I'd appreciate your vote in the upcoming elections. Thank you.

Roving Reporter

Question: What do you think of a male running for commissioner of A.W.S.?

★ ★ ★

Merrily Kassing: I don't think a boy should run for an office that should be held by a girl. There is no rule against it, so I guess he can run.

★ ★ ★

Claudia Andrews: If they let me coach football then I'd agree in letting a man head the AWS. — OH! they won't let me coach the football team? Well, I guess you're right, it is a man's world, but face it baby, we women run it.

★ ★ ★

Linda Jones: To my way of thinking—president of any organization should be at least fair representation of the majority of the group's interest, and I seriously wonder if a man can truly represent a women's organization, and if he was elected, I seriously doubt he could truly understand what they want out of their organization.

Kim Jones: I don't think a male should run for that association because it is a female's position.

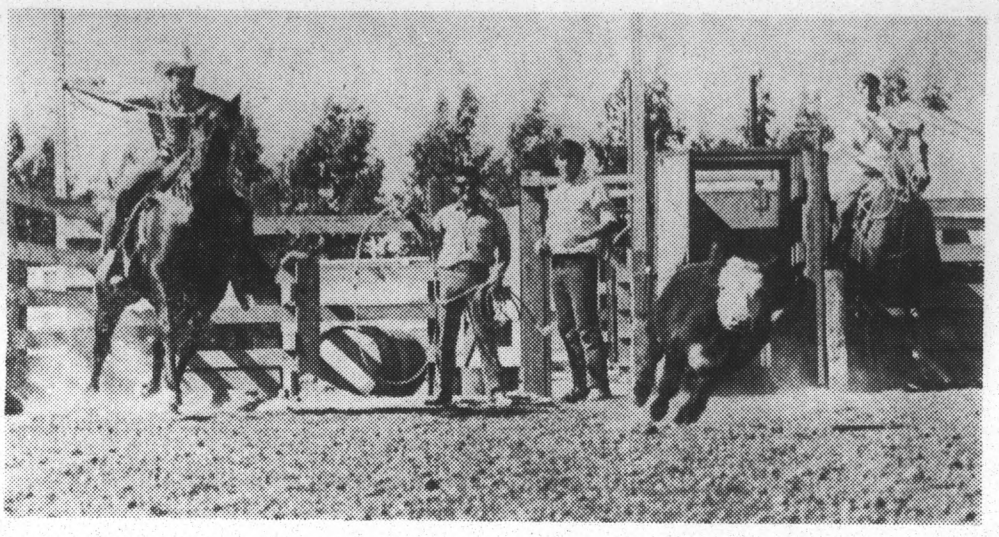

★ ★ ★

Question: What made you run for the commissioner of Associated Women Students?

Mark Wall: What made me run—I decided to run just for a joke at first, because nobody had decided to run for this office. The women around campus showed no interest in the office, nor did anybody else, so I decided to run. I thought that among other things it would show people that if a person ran unopposed for what is generally considered a woman's office when it seems that they have no qualifications for that office being of the opposite sex, would show the importance of becoming personally involved in their own student government.

I've found that this is an office that few people have done anything with, so I knew that I couldn't do any worse. I felt that being a male I could arouse some interest in A.W.S. With a male as president I don't think members of the association will feel that this is a tea or gossip club. I don't think this is what the women of Hartnell want.

■ **HARTNELL rodeo team in action. Vernon Gomes is out of the chute like a rocket chasing the speedy steer as assistant instructor Eddie Rogers (&with rope in hand), Manny Escobar and Paul Zanardi (on horse) look on admiringly.**

Where Action Is—Women, Men, And Mounts Against Time!

One of the most interesting of all campus clubs is the Hartnell Horseman's Associiation. The club has about 40 members of whom most are avid horsemen or horsewomen, as the case may be.

Some of the major fund raising activiities of this club are the sponsorship of the Homecoming dance and the organization of horse shows throughout the year in which most members participate. Many other activities, such as trail rides and barbecuses, are participated in by the majority of the members and rides of 20 miles are not uncommon.

Perhaps the major activity in which the club takes part is the rodeo team. The team travels to many college rodeos throughout the west and the team members enter the events at their own expense. They must furnish their own transportation to the rodeos, but the ASB pays their room and board at these events.

The team members are not like the other teams of Hartnell in that they, first of all, have to buy their own horse, saddle, ropes, and horse trailer, all of which could amount to $2000 or more. In addition, they must have an automobile capable of pulling 4000 pounds down the highway.

The team members compete individually in such standard events as calf roping, ribbon roping, steer wrestling, bull riding, saddle bronc riding and bareback riding. Some of the members also compete in pairs in team roping competition. Points are awarded in the six standard events while prize money iis awarded for the team roping.

The male rodeo team members include Paul Zanardi (club president), Paul Benoit and John Petersen, veterans from last yar's team, along with newcomers Vernon Gomez, Ray Borgini and Brian Ervin.

Girls are also represented on the team. Dawn Poston and Marsha Cornell are two members back from last year while club secretary Tootie Truesdale and treasurer, Connie DeCarli, are expected to challenge team for berths on the team (only three members are allowed).

Shasta Rodeo

The team travels to Shasta College next weekend to compete in the October 18 and 19 rodeo to be held there. All in all the team members will probably have over $400 of their own money invested in entry fees to represent Hartnell as this event.

Those entered at Shasta are:

Paul Zanardi, calf roping, ribbon roping.

Paul Benoit, bull riding, ribbon roping, team roping.

John Petersen, calf roping, team roping.

Ray Barzini, calf roping, ribbon roping, bareback riding.

Vern Gomez, calf roping, team roping, saddle bronc riding.

Brian Ervin, ribbon roping, team roping.

Dawn Poston, breakaway roping, barrel racing.

■ **WITH DR. HARWOOD, Coach Kelley, distinguished members of the faculty and Dennis Criswell, Mark Walls and Boom-Boom, three good natured students standing in as Comets, it was a wet day had by all as the Hartnell students turned out to douse the Comets in efigy.**

Many of the spectators were doused along with the Comets during the water throwing melee as the Comets taunted all with how they were going to win. With reinforcements of rally music by the band the rally was a huge success.

COMMISSION REPORT

IT'S A BEAUTIFUL DAY

The major issue of Tuesday's commission meeting concerned the establishment of an ASB trust fund for special events. This move was taken to allow the scheduling of such events as the rock concert staring "It's A Beautiful Day which is scheduled for Sunday, October 19, at 2 p.m. in the men's gym. The fund was established by removing money from the Choir and Hospitality funds, with the full consent of those involved, and the proceeds will go to the choir. This trust fund is actually working as an investment by the choir in the rock concert and they will either make or lose money depending upon the success of the concert.

In other actions, a food committee was established to work with the cafeteria in maintaining quality service and good student relations, Kathy Johnson was installed as Commissioner of Women's Athletics and the finance policy was revised to allow for the lack of commission meetings during the summer months.

Mike Stark requested in a final action that all commissioners give serious consideration to changing the commission meeting hour to 11 to 12, the student hour, so that more students might attend. The meeting was then adjourned.

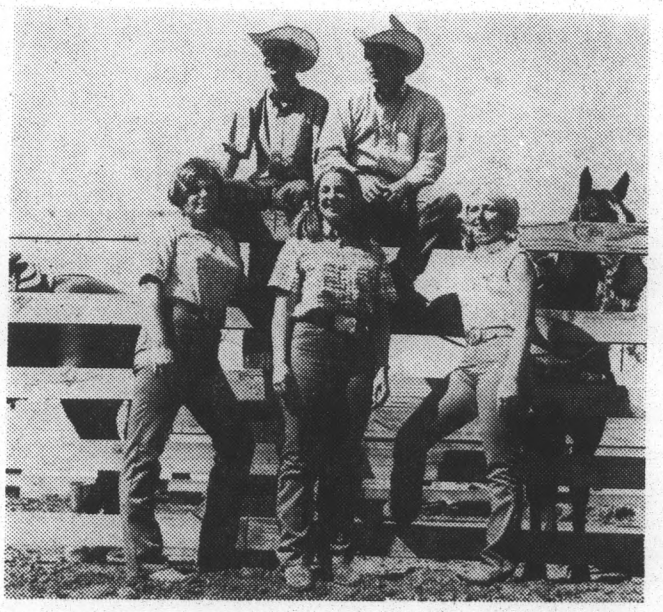

Letters to the Editor

Re: The "Chicano" Article

The word or name "Chicano" is a slang term. It's identification is connected with the Mexican-American movement today. Chicano can be used to help students to better themselves through educatiion. If this is possible, then use of the word "Chicano" is good and should be used.

The origin of the word "Chicano" can be traced back to the word "Mexicano" and the word "Chihoahua", as designating that state in Mexico, and was later shortened to "Chicano" for convenience. It's a word students use because they are proposing a "change" and this is a social change and the word identifies with the present movement in this social change.

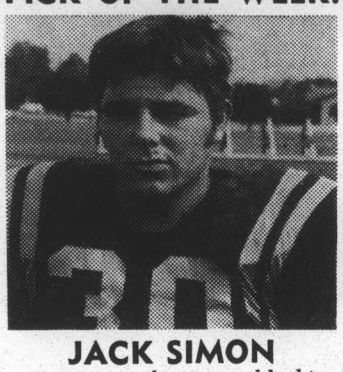

—MARGARITO GONZALES.

■ **THIS YEAR'S RODEO CLUB officers are as follows (from top right to left): Paul Zarardi, president; Vernon Gomez, vice president; (bottom left to right) Tootie Truesdell, secretary; Connie DeCarli, treasurer, and Marsha Cornell, public relations.**

PANTHER SPORTS

PICK OF THE WEEK:

JACK SIMON

Vicious, pulverizing blocking and tough, hardnosed football play brings the PICK OF THE WEEK selection to offensive tackle Jack Simon.

The big tackle, standing six feet tall and weighing 220, did an outstanding job in the offensive line, leading the Panthers to a 27-12 victory over the Palomar Junior College Comets last Saturday.

On the biggest gainer of the night, an 80-yard romp by Pete Vililarreal, Simon piled up four Comets all alone to set Pete on his way.

Jack is in his first year at Hartnell and will be back again next year. He graduated from Gonzales High School last year

Fresno State College or Cal-Poly at San Luis Obispo are Jack's choices in four-year schools. Known as "Fat City" to his fellow players, he has not decided what field he will major in at college but he knows he wants to play football.

SCORE 27-12

TRIUMPH!!

The Hartnell Panthers put it all together Saturday night and won a football game. The Panthers beat the Palomar College Rams by a score of 27-12 to give themselves a 1-2 mark.

The defensive squad was extra sharp as they held the Rams without a score in the first half and it was only against the inexperienced reserves that they scored at all.

Coach Bob Kelley, line coach, named as outstanding in the game Ron Lucas, linebacker; Manuel Gomez, defensive tackle; Mike Doglione, DHB. On offense the outstanding players were Rex Smith, end; Jack Simon, tackle; Roger Twibell, center; Larry Crawford, fullback; Bob Echeveria, fullback, and Pete Villarreal, halfback.

The first time the Panthers got their hands on the ball they marched down the field to a touchdown. A 34-yard pass from QB Jim Erickson to end Rex Smith brought the score and Chuck Noroian kicked the extra point to give the Panthers a 7-0 lead.

Larry Crawford, last week's PICK OF THE WEEK, scored the next Panther TD on a 9-yard slant off right tackle with 8:11 left in the half. Crawford gained 81 yards on 15 carries for a 5.4 yards per carry average.

Less than three minutes lates, halfback Pete Villarreal took off on an 80-yard jaunt for the next Panther score. Four Palomar players had Pete trapped near the line of scrimmage but tackle Jack Simon, with a vicious block, wiped out all four to spring the speedy back. Noroian kicked the point after to give Hartnell a 20-0 lead at half time.

The Panthers started the second half on a bad note as they had two costly penalties and gave up the ball. But they got it back right away as Tony Glanville picked off a Palomar pass.

A busted play cost the Panthers the ball again and gave the Rams their first score with 1:17 left in the third quarter.

The Panther coaching staff got upset with the officials and Coach Kelly had a few words with one of them. The officials were not calling any of the cheap shots the Rams were taking at the Panther players. Coach Kelley told his charges not to stand still for the cheapies and the players didn't.

One of the Rams took a shot at halfback Mike Herrick and the battle was on. The official was right on top of the play and said it was NOT the Panthers' fault and the Ram player was thrown out of the game.

A short time later, end Leon Clark was clipped from the rear by a senseless, sadistic Ram player. This meant the end of Leon's football days at Hartnell as his leg was broken and he will be out for the season.

Defensive back Tom Sanchez also was lost for the season as he hurt his knee and was to have been operated on last Wednesday. This will hurt the Panthers quite a bit as Sanchez was Clark's back-up man.

The Panthers scored once more with 11:27 left in the game. Again, it was Crawford carrying the ball but with a new twist. Guard Pete Micheletti slipped on a backfield jersey and led the way into the end zone. We can look for this offense again this year when the Panthers need a couple of yards.

With the game on ice, Coach Arvin Smith emptied the bench to give some game experience to all the players. It was against these reserves that the Rams scored the final TD of the night.

Quarterback Andy Varinelli had a pass intercepted in the closing minutes of the game but it didn't affect the final score. The game came to a close with the scoreboard showing the Panthers ahead 27-12.

HARTS SCORE

■ **LARRY CRAWFORD carries the ball in for a TD from nine yards out. Opening the hole for Crawford is end Rex Smith (81) and Bob Echeveria (32) can be seen carrying out a fake run. The Panthers won the game 27-12.**

44 - 42

Remember the Alamo

That was the final outcome of the playoffs last year in Coalinga when the Hartnell Panthers lost the right to go on to the state finals. But the game this week should prove that the Hartnell Panthers are the better of the two teams.

With the victory over the Comets of Palomar Junior College the Panthers are riding high and aren't about to get knocked off. They're out to beat Coalinga even if they have to do it with only 22 players, because of a large number of injuries.

Injuries

The defensiive team suffered it's greatest loss of the season when defensive end Leon Clark suffered a broken leg, which will keep him out the remainder of the season. Defensive halfbark Chip Campion will most likely see limited artiion, and offensive center Bob Prader should be able to see limited action also. Jack Turnier had his leg operated on and should be ready to go in the Menlo game.

Defense

The Falcons are a team that depends on the running of just one person, and if the Panthers are able to control him, the game should be in their pocoket. That shouldn't be hard for the local team to do because each game they are looking much better. The defensive secondary is finally maturing into a first rate unit. The person who holds the defensive unit together is Manuel Gomez, a 220-pound tackle who earned all-conference honors last year as a freshman under the watchful eye of line coach Bob Kelly.

Offense

The offensive team has finally found the running back that they were so worried about at the beginning of the season in the "Spanish Flea," Pete Viillareal, number 29. With the Flea, Headies, and the Judge in the backfield, Coalinga will not know whom to watch. There are many more players that stand out on the team such as end Rex Smitih, who has been double-covered from the very first game of the season. These men are worth watching if you like a good game of football.

Harriers In Victory

The Hartnell Panthers cross country team, under the direction of Coach Gary Shaw, took their first meet of the season last Friday in an impressive win over the Monterey Peninsula College Lobos. The final score was Hartnell 21 and the Lobos 34. If you read last week's Sentinel, you will remember the team that scores the least number of points is the winner.

Jeff Berryessa, Phil Garcia and Glen Walder came in 1-2-3 for the Panthers to give them the win. Other members of the team that scored for the Panthers were Bryan Kujula and Rudy Castillo.

The Panthers will face the tough Ohlone College trackmen today at Ohlone. In a pre-season scrimmage the Panthers were beaten by Ohlone. Ohlone is probably the toughest team in the Coast Conference this year and the Panthers will need a good performance by all members of the team to come up with a win.

CAGERS OPEN NEW SEASON

Basketball practice for the Hartnell Panthers gets underway this Wednesday, October 15. Head Coach Len Wilkins expects a good turnout for this year's squad.

"This will be the toughest schedule in Hartnell basketball history. There will be a 'doubleheader' on December 19 with Shasta and MPC going in the first contest and Hartnell and College of Redwoods in the second.

The following night, the teams will switch opponents and move to the Lobos home court with the Panthers in the first game with Shasta.

The Panthers will have the services of Franklin Irwin again this year along with Dwight Holliday and some others from last year's championship team.

The Panthers had the greatest year in Hartnell history last year under the direction of Coach Wilkins.

CUZ

Hartnell's Touch With Semi-reality

I knew I shouldn't have drank that last can.

It felt as if all eyes were on me as I groped in my pocket for a dollar. Those stinkin' tapered pants made it hell to take anything out of your pocket. Sweat began to envelope my searching hand when, at last, I finally fished out my Washington. There! Take that, you money-grabbing capitalists, I thought. I love to use the word even though I'm as American as refried beans.

JJeesuz! My index finger was bleeding! So that's where I put my pop tops. Why couldn't I have thrown them in the cans. Oh, yeah, now I remember. I promised myself never to do that again after that slashed lip. I solved this disastrous problem by hanging my wounded digit in the corner of my pocket. A Paul Newman I could pass for with this striking maneuver.

Man! Am I the only sober person here? Everybody reeks with the odor of brew. No morals. I gracefully ambled over to the gym doorway careful not to be hit by the dozens of wavering bodies.

Not bad. Not bad at all. Those were some pretty clean sounds. The band would soon start playing again, though, so I just decided to take the noise in.

"Hey, Cuz, what's happening?" I knew who that was right away without looking. I had heard he had played one hell of a game so I let him talk to me. I'm not proud.

"Mean dance, huh," I said. As soon as I finished the sentence I knew I had made a mistake. All that air rushing in at one time was just too much. I saw a pig-tailed dude dancing with three broads. A mover, I figured.

Then I felt it.

Cold steel against my Penny's Towncraft jolted me into reality.

Although I had never felt the barrel of a cop's gun I knew that what was poking me in the back wasn't a Mattel Johnny O Seven. Instantly I though of Lucille. What would she say. She'd take back all her Arlo Guthrie ringlets and her trained caterpillar circus. Mom and Dad would just keel over. They'd take away my keys to the DeSoto. Oh, horrors! My coach would find out. No more baseball games. No more away trips. I was too young to be kicked out of a Hartnell dance!

The pig was gonna speak, I could hear him begin to think about what his tongue was supposed to do and what his lips were supposed to do.

"Take your shoes off, punk!"

I knew I should have worn socks.

QUESTION:

Why isn't there a rooters bus going to Coalinga?
